is hypovolumic / haemorrhagic  
Shock due to accident having  
multiple fractures, internal organs  
& internal injuries, vitals injuries  
leading to death.

Dated 20/6/18 199

  
(Signature)  
Medical Officer

\*The Spinal Cord need not be examined unless there are any indications of disease, Strychnia poisoning or if it is  
Note.—The report must be written and signed immediately after the examination. Medical Officers will at once  
despatch a duplicate copy to the Civil Surgeon of their district for record in his office.  
Care should be taken not to cut the viscera before they have been inspected *in situ*.
