

Infect, NOT opened.

Opinion as to the cause
probable cause of death.

Hemorrhagic shock due to
injury to vital organs.

Dr. R. G. Dwivedi

Medical Officer (Signature)

Sub-District Hospital
Kamptee, Dist. Nagpur

Dated 29/08/2018.

*The Spinal Cord need not be examined unless there are any indications of disease, Strychnia poisoning or injury.

Note—The report must be written and signed immediately after the examination. Medical Officers will at once despatch a duplicate copy to the Civil Surgeon of their district for record in his office.

Great care should be taken not to cut the viscera before they have been inspected *in situ*.
